dormakaba

Data collection with the cafeteria solution
## B-COMM for SAP

Benefits at a glance:

- Web-based for easy operation without installing software
- Structured database-based data management
- Databases are easy to secure and safe from unauthorised access

dormakaba B-COMM for SAP comes with a flexible and user-friendly cafeteria solution called TRS Kantine with a browser-based user interface.

Extremely flexible
This multilingual cafeteria solution was specially developed to be highly adaptable and comes with extensive customisation options for your cafeteria processes.

The clear user interface also simplifies data acquisition for end users and configuration and evaluation for facility operators.
