dormakaba stands alone as the global leader in safe locks with trusted brand equity and the strongest partner relationships with financial institutions and integrators. The Axessor Apexx solution is the first release in a series of new products that will be integrated in the Apexx Series Software.

While there are other IP solutions that have been introduced, the Axessor Apexx delivers:

- Advanced encrypted security: Ebox to network (TLS 1.3), Components (AES256)
- Easy custom software integration built on the back-bone of RESTful API
- A scalable multilock solution that can accommodate thousands of users, managed securely and remotely
- Future iterations for legacy Cencon integration & modernized ATM solutions

Any questions? We would be happy to advise you.
