Saffire™ LX-P
SMART RFID Exit Device Compatible Lock

Features
- Expand your access control as your multihousing community grows
- Complements panic devices and electronic access
- Available with third-party integrations to create a modern living experience
- RFID credentials are easy-to-use and hard-to-lose
- Eliminates cost and hassle of managing keys
- Designed to support use with panic devices
- Ideal for new construction projects or retrofits
- Suitable for small to large-scale multihousing properties
- Commonly used on perimeter entry points in conjunction with the full Saffire product line up to deliver a property wide electronic access control solution

Overview
Saffire LX-P Smart RFID Lock features RFID technology in a contemporary design and provides support for use with exit trim devices. Using Saffire LX-P, multihousing properties now have the option of issuing mobile, fob, wristband or card credentials for added convenience. Easy-to-use, flexible and secure, Saffire LX series offers a suite of smart solutions that combine high-performance with clean aesthetics.

Convenient Mobile Access
Equipped with Bluetooth Low Energy (BLE) technology, Saffire LX-P gives mobile-minded residents the convenience of using a smart device to simplify access throughout the property. Our state-of-the-art key delivery platform securely issues and authenticates mobile credentials through BlueSky, dormakaba's mobile access app.

Intuitive Access Management Software
The Saffire LX-P is managed by Community™, dormakaba's access management software. Community empowers property managers to intuitively manage access to residences, amenities, common areas and perimeter from a single platform, improving security and operational efficiency. Community can issue both RFID and mobile credentials seamlessly and within minutes.

Smart and secure solutions:
- Maintains lock programming and audit records
- Staff monitoring – RFID keycard audits
- Tamperproof design
- No touring – Update access without visiting lock
- Operates with a completely sealed, high performance contactless reader
- Battery life up to 2 years under normal operation
- Low battery indicator for preventative maintenance

Factsheet

NMKO　　　**MKO**
