

CERTIFICATE OF APPROVAL No CF 844

This is to certify that, in accordance with TS00 General Requirements for Certification of Fire Protection Products The undermentioned products of

DORMA UK LIMITED

Wilbury Way, Hitchin, Hertfordshire SG4 0AB Tel: 01462 477600 Fax: 01462 477601

Have been assessed against the requirements of the Technical Schedule(s) denoted below and are approved for use subject to the conditions appended hereto:

CERTIFIED PRODUCT DORMA ED100 and ED250 Overhead Mounted Door Closing Devices

TECHNICAL SCHEDULE

TS 34 The Contribution Of Controlled Door Closing Devices And Accessories To Fire Resisting Doorsets

Signed and sealed for and on behalf of Exova (UK) Limited trading as Warrington Certification

Sir Ken Knight Chairman Impartiality Committee

Paul Duggan Certification Manager

Issued: 28th March 2011 Revised: 15th July 2017 Valid to: 31st December 2017

Page 1 of 4

DORMA ED100 and ED250 OVERHEAD MOUNTED DOOR CLOSING DEVICES

- 1. DORMA ED100 and ED250 are overhead mounted devices providing a door closing function, all units have adjustable power.
- 2. This certification is designed to demonstrate compliance of the product or system specifically with Approved Document B (England and Wales), Section 2 of the Technical Standards (Scotland), Technical Booklet E (N. Ireland). If compliance is required to other regulatory or guidance documents there may be additional considerations or conflict to be taken into account.
- 3. This approval relates to their use with the following door assemblies:-

Latched and unlatched, intumescent sealed door assemblies consisting of timber faced and edged leaves with timber, cellulosic or mineral cores in timber frames having a fire resistance up to 120 minutes (Code ITT).

ED250 only, latched and unlatched, door assemblies consisting of metallic leaves and frames having a fire resistance of 30 minutes (Codes MM and IMM).

ED250 only, latched and unlatched, intumescent sealed door assemblies consisting of timber faced and edged leaves with timber, cellulosic or mineral cores in steel frames having a fire resistance of 30 minutes (Code ITM).

- 4. The units are approved on the basis of:
 - Initial type testing to the requirements of EN 1154 and EN 1634-1 i)
 - ii) An appraisal against TS34
 - Certification of quality management systems to ISO 9001: 2008 iii)
 - iv) Inspection and surveillance of factory production control
 - On-going audit testing in accordance with the requirements of EN 1154 V)
- 5. This approval is applicable only to the specified products used with door assemblies of proven fire resistance (as defined in BS EN 1634-1 or BS 476: Part 22: 1987) and having power ratings appropriate to the leaf sizes subject to a minimum size 3 (as specified in EN 1154).
- 6. The approval relates to on-going production. The product and/or its immediate packaging is identified with the manufacturer's name, the product name or number, the CERTIFIRE name or name and mark, together with the CERTIFIRE certificate number and application where appropriate.

Publié:28 Mars 2011Révisé:2 Novembre 2011Valide jusqu'au:27 Mars 2016

This certificate is the property of Warrington Certification Limited, part of Exova (UK) Ltd. Registered office: Lochend Industrial Estate, Newbridge, Midlothian, EH28 8PL, UK, Registered in Scotland, No. SC 70429

CERTIFICAT No. CF844 DORMA UK LTD

DISPOSITIFS DE FERMETURE DE PORTE MONTÉS DANS LE HAUT DORMA ED100 et ED250

- 1. Dorma ED100 et ED250 sont des dispositifs de fermeture de porte montés dans le haut pour fournir la fonction de fermeture et la force des deux dispositifs peut être ajustée.
- 2. Ce Certificat est conçu pour démontrer la conformité du produit ou du système spécifiquement vis-à-vis du Document B Approuvé (Angleterre et Pays de Galles), de la Section 2 des Normes Techniques (Écosse), et de la Brochure Technique E (Irlande du Nord). Si la conformité est exigée vis-à-vis d'autres documents obligatoires ou de recommandations, il faudra peut-être tenir compte de contradictions ou d'autres choses.
- 3. Cette approbation concerne son utilisation dans les assemblées de portes suivantes:

Des assemblées de portes intumescentes fermées, verrouillées et non verrouillées, composées de battants revêtus de bois sur les faces et les bords, et dont les centres sont en bois, matières cellulosiques ou minérales dans des encadrements de bois ayant une résistance au feu de jusqu'à 120 minutes (Code ITT).

ED250 seulement, des assemblées de portes verrouillées et non verrouillées, composées de battants et d'encadrements en métal ayant une résistance au feu de 30 minutes (Codes MM et IMM).

ED250 seulement, des assemblées de portes intumescentes fermées, verrouillées et non verrouillées, composées de battants revêtus de bois sur les faces et les bords et dont les centres sont en bois, en matières cellulosiques ou minérales dans des encadrements en acier, ayant une résistance au feu de 30 minutes (Code ITM).

- 4. Les unités sont approuvés sur la base de:
 - i) Tests du premier type selon les exigences de EN 1154 et EN 1634-1
 - ii) Une évaluation d'après TS34
 - iii) La Certification des systèmes de gérance de la qualité selon ISO 9001:2008
 - iv) Inspection et surveillance du contrôle de la production en usine
 - v) Vérification des tests en cours conformément aux exigences de EN 1154
- Cette approbation est applicable uniquement aux produits spécifiés utilisés avec des assemblées de portes de résistance au feu agréée (comme défini dans BS EN 1634-1 ou BS 476: Partie 22: 1987) et ayant des puissances nominales appropriées aux dimensions des battants sous réserve d'une dimension minimum 3 (comme spécifié dans EN 1154).
- 6. L'approbation concerne la production en cours. Le produit et/ou son emballage direct est identifié par le nom du fabricant, le nom ou le numéro du produit, le nom CERTIFIRE ou le nom et la marque, ainsi que le numéro du certificat de CERTIFIRE et l'application le cas échéant.
