

# Glass locksets

## Locksets for interior tempered glass doors

### **CLM9000, Studio, Junior, ARCOS**

DORMA has locks, levers, and accessories for tempered glass doors to meet a broad range of technical, aesthetic, and budget requirements—regardless of the doors' design, size, type, or location.

### **Simple glass preparation**

DORMA has extensive experience with glass in construction and has developed fittings that reduce glass preparation to the quick and easy drilling of a few holes. The carefully thought out design of DORMA fittings provides maximum clamping area and optimum clamping force.

### **Reliable operation**

Quality materials and robust construction guarantee an unsurpassed standard of durability and reliability.

## Locksets for interior tempered glass doors

- **CLM9000**—A sleekly designed lockset measuring only 5" x 9" with a built-in DORMA heavy-duty Grade 1 mortise lockset. Extremely reliable with high strength springs and a positive stop.
- **DORMA Hook Lock**—For sliding doors with a nightlatch function. Complete with wall mounted strike plate and choice of Flat Lever or Tubular handles.
- **Studio Rondo**—Simple uncluttered lines enhance the inherent beauty and character of tempered glass.
- **Studio Classic**—A slim shape that fits perfectly into its surroundings

and enhances the appearance of interior glass doors.

- **Junior Office**—For demanding specifications/ reliability in busy environments.
- **Junior Office Classic**—A timeless classic engineered for heavy use and a range of demanding requirements.
- **ARCOS Studio**—The epitome of elegance to underline the value of transparency in interior architecture.
- **ARCOS Office**—Heavy-duty elegance to withstand constant use and still combine proven functionality with aesthetics.

NOTE: When designing for use in wet environments, please contact DORMA Technical Services to help you choose the appropriate hardware. Assemblies are generally not suitable for use in swimming pools, saunas and baths.
