**The DORMA ESA300T —
Automatic telescopic sliding
doors driven by proven ESA
technology.**

Full Breakout Configuration

DORMA ESA Drive Unit

Key Features

- Rugged header and extrusion package for solid and consistent operation.
- Sound dampening gasket that greatly reduces vibration and provides whisper quiet operation.
- Simple and reliable belt-driven design with removable outer track.
- Optional panic bars with Autolock available (included in doors shown).

Extra wide clear opening

The ESA300T auto-telescopic door is perfect for corridor applications and openings that require an extra wide clear opening distance. The rugged design utilizes the proven ESA slider drive unit, with an added ultra-rigid extrusion to enable the telescoping action. The compact header, 7-1/2" high by 6-5/8" deep, is exceptionally narrow for a telescopic door and minimizes projection from the door jambs. The overall package can handle widths up to 20'.

Full breakout design

The ESA300T is a full breakout design completely engineered, manufactured, and assembled by DORMA Automatics. When the door operator components arrive on site, they have been factory-assembled within the header, fully adjusted, and fully tested.

Programmable microprocessor control

DORMA telescopic sliding doors are controlled by the technologically advanced ESA door system. A self-learning, self-monitoring microprocessor control monitors all critical

door functions and safety sensors. Door functions such as opening and closing speed, check locations, and partial open dimensions, are all fully programmable.

DORMA Entrance Systems™

DORMA Automatics • Crane Revolving Doors • Carolina Door Controls
 Providing entrance systems that meet or exceed industry standards while maintaining architectural appeal.

DORMA Group North America

DORMA Automatics
 A leading innovator of automatic door systems, DORMA Automatics offers products for practically any application: retail, health-care, office buildings, airports, hospitality, and more.

Crane Revolving Doors
 The choice of leading architects for commercial and institutional buildings, Crane Manual, Automatic, & Security Revolving Doors can be found in buildings worldwide.

Carolina Door Controls
 Providing sales, installation, and service for automatic doors.

DORMA Entrance Systems
 Pedestrian Flow, Safety & Security

DORMA Architectural Hardware
 Providing Safety & Security Around the Door
