# PORTEO – the small swing door operator from dormakaba

The PORTEO offers a convenient way to open doors effortlessly and to close them automatically. With all the elegance of the dormakaba Contur design, the PORTEO is specifically suited to light doors, performing all the functions needed to make life just that little bit easier for all.

High-quality dormakaba technology makes the PORTEO particularly easy to operate – with minimum noise, high functional reliability and excellent application adaptability. The PORTEO is delivered ready-to-connect and offers much comfort and safety in conjunction with fast mounting thanks to its Plug & Go feature. The system is delivered as complete package with slide channel and mounting plate. The PORTEO can be further functionalised with original dormakaba system accessories to give even more operating convenience, user-friendliness and enhanced safety. In combination with an optional pushbutton and an electric strike, for example, the door can be simply opened with the push of a button. Use the hand-held transmitter „BRC-H“ for even more convenient opening and closing. The PORTEO is the application for opening and closing doors the convenient way. Safe, reliable and easy to upgrade.
