

Saffire™ LX-L

SMART Latch RFID Cylindrical Lock

Features and benefits

- Operates with a completely sealed, high performance contactless reader
- Low battery indicator for preventative maintenance
- RFID credentials are easy-to-use and hard-to-lose
- Eliminates cost and hassle of managing keys
- Expand your access control as your multihousing community grows
- Available with third-party integrations to create a modern living experience
- Ideal for new construction or retrofits
- Suitable for small to large-scale multihousing properties
- Single system to control resident units, perimeter entries, amenity spaces and storage units

Overview

Saffire LX-L Smart Latch Lock is a sleek, contemporary design RFID lock with a small footprint designed with the latest connectivity and security conveniences for multihousing properties. The Saffire LX-L provides an easy-to-use, secure, and flexible solution that is both visually attractive and high performing. With its sleek curves and clean aesthetics, Saffire LX-L results in a lock design that integrates seamlessly with your property décor.

Convenient Mobile Access

The Saffire LX-L is equipped with Bluetooth

Low Energy (BLE) Technology, which gives today's residents the added convenience of using a smart device in addition to fobs to access units, common areas and the perimeter. Our key delivery platform issues and authenticates mobile credentials through BlueSky, dormakaba's mobile access app.

Intuitive Access Management Software

The Saffire LX-L is managed by dormakaba Community™ access management software. Community provides intuitive management of residences, amenities, common areas and perimeter access from a single platform. Community offers the

convenience of both RFID credentials and BLE mobile access keys for a seamless experience with no need for additional software.

Security features

- BHMA Grade 2
- Maintains lock programming and audit records
- Staff monitoring – RFID keycard audits
- Tamperproof design
- No touring – Update access without visiting lock
