**Re: Degree of protection IP54/IP55 / electronic small iron-work /
type: c-lever TouchGo and c-lever TouchGo ES1
Order number: TGM-VA EE 32620B-4**

Dear Mr. Aigner,

as ordered we carried out the tests for the degree of protection according to:

ÖVE/ÖNORM EN 60529+A1:2000-10-01

for the electronic small iron-work type: c-lever TouchGo and c-lever TouchGo ES1.

The electronic small iron-work type: c-lever TouchGo and c-lever TouchGo ES1 complies with the above mentioned standards for the following classification:

c-lever: coupler-module: IP54; the other areas of the electronic small iron-work: IP4X
c-lever ES1: coupler-module and circuit board / aerial IP55
the other areas of the electronic small iron-work: IP4X

After the tests the close- and open function of the electronic small iron-work persist.

Sincerely yours
