

## DORMA Easy adapt

### Product features

- Latch guide for electric strikes of the series 117, 137, 117 RS, 447
- Stainless steel case
- Cable duct for fixing the interconnecting wires to the electric strike
- Adjustable latch

### Benefits and plus points

- Visually tidy solution thanks to integrated latch guide
- For use with DORMA standard, smoke and fire electric strikes
- Non-handed
- Very easy to install
- Allowance for dimensional tolerances thanks to adjustable latch
- No complicated matching-up of electric strike and strike plate
- Suitable for different standard flat strike plates
- Made in Germany

### Specification text

**Easy Adapt is an electric strike case adapter with latch guide.**

For upgrading DORMA electric strikes to provide latch-guided versions.

Can be combined with electric strikes of series 117, 137, 117 RS, 447 and also models featuring mechanical deactivation (function E) and monitoring contact (function RR).

Adjustable electric strike latch allows adaptation to installation tolerances.

Integrated cable duct for fixing the interconnecting wires to the case adapter.

Art. No. 15198010

Price: €25.00 gross (as at September 05)
