

# Ilco 79 Series

#### Overview

The Ilco 79 Series door lock offers contactless RFID technology to enhance resident convenience and improve operational efficiency. This RFID solution offers keycard auditing capabilities for enhanced staff monitoring and user accountability. The Ilco 79 lock works with web-based RezShield™ software. In addition the lock will soon be able to operate using the Kaba Mobile Key System and be offered with one of the following options: Bluetooth Low Energy (BLE) ready or BLE enabled.

## Applications

- Suitable for small to very large scale properties
- Easily replaces existing mechanical or electronic door locks
- Access control for individual units, common areas, and back-of-house

### Security Features

- High security and tamper resistant design
- 1" solid deadbolt (optional auto deadbolt)
- Emergency access: Emergency keycard, mechanical key, and electronic override

#### Low Maintenance

- Operates with a completely sealed RFID reader
- Designed for extended battery life
- Low battery indicator alerts staff
- Lock programming and audit are not erased during battery replacement
- · Wear resistant construction and finish
- Upgradeable lock firmware for future enhancements
