Keyscan K-SLD310S
Single-sided ID card and credential printer

ID Card Printer for Small Businesses

The dormakaba single-sided ID card and credential printer from IDP is an easy-to-use entry-level ID card printer for small organizations. It is fully compatible with Keyscan Aurora software and, together, can produce full-color or monochrome printed ID cards and/or customer branded access control credentials.

Its time-test design provides reliable and robust printing speeds, excellent image reproduction and cost savings.

Plus, it offers a wide range of optional features including Ethernet, smartcard encoding, and ultra violet (UV) printing.

The Aurora software application offers simple tools for card design, or you can upload pre-designed corporate templates directly into Aurora to allow the user to create a truly customized card within minutes.

Now small businesses can afford to produce their own ID cards and credentials.
