

dormakaba Rosé

Biometric Digital Door Lock

Advantages at a glance

- Keyless entry
- Operated by fingerprint or PIN code
- Non-handed
- Suitable for new installation or retrofit any 54mm lock hole
- Finish: Silver or Black

Leave your keys in your pocket;

The Rosé biometric digital door lock is a smart and innovative door handle solution that provides fast and secure access.

Open the door between the garage and the house with your fingerprint or PIN code.

Also perfectly suited to student accommodation rooms, storerooms, studies, etc.

The solution includes a highly reliable biometric reader complemented with an electronic keypad.

The Rosé can be installed left or right handed, depending on your door; no need to specify the handing of the door.

The Rosé comes complete with a high quality dormakaba 60mm backset tubular deadlatch for maximum security and reliability.
