IP8 Restricted Key System

Security where it counts

The dormakaba IP8 restricted key system enables effective management of the security of your premises and peace of mind. The IP8 system offers security, flexibility and quality.

Design Registered Keyway

The dormakaba IP8 key system is a standard inline 6 pin master key system. Design registered until 2024.

The IP8 key system is design to enable our locksmith dealers to maintain and service your master key system.

Additional keys can only be cut by that dealer upon correct authorisation provided by you, the end user.

Pick resistant key broach

The IP8 complex profile design makes it much more secure and resilient against lock picking attacks.

Features

- The IP key range is made of nickel silver, with a large key head, for ease of use for the elderly or disabled.
- We offer 5 different colour inserts which prove a great visual aid to assist with the identification of keys.
- dormakaba can provide a variety of plug types available to suit various lock applications.
- The IP8 range includes cylinder housings to suit all major commercial and residential lock types.
- All IP8 components have been designed by Australian industry experts to the highest standards.

Advantages at a glance:

- Large key head, for ease of use for the elderly or disabled.
- We offer 5 different colour inserts.
- The IP8 range can be construction keyed, master keyed, keyed to differ or keyed alike.
- Suitable for commercial and residential.
- All IP8 components meet the highest standards.
