Key & Core

dormakaba

Keying systems are designed for the highest level of flexibility.

Our standard and small format interchangeable core (SFIC) meet a wide range of applications for commercial use with a variety of manufacturers' products to provide the highest level of flexibility. For existing key systems in need of re-keying, using small format interchangeable cores (SFIC) offers quick and easy installation. All dormakaba key and core products are backed by a lifetime mechanical warranty.
