- a. All 4-1/2" WIDE HINGE and 3/4" OFFSET PIVOT dimensions are for 1-3/4" thick doors, CENTER HUNG are for 1-3/4" to 2-1/4" thick doors. For additional door thicknesses consult DORMA's Technical Services department.
- b. DEAD STOP is the maximum degree to which the door will open when the shock spring is fully compressed.
- c. HOLD OPEN is the degree the door is held open. The shock absorber spring compresses while the door moves to the dead stop position which is several degrees greater (approx 8-9 degrees).
- d. All values are in inches.
