

S 99 FLR-K

ANSWER The answer is 1000.

- The diagram shows a cross-section of a door frame. Key dimensions are indicated: a total height of 160, a top gap of 65, a handle height of 42, and a maximum door width of 1250 mm. Callouts provide detailed views of the door's edge, including a 16 mm gap from the wall and a 11 mm gap between the door and the jamb. The door itself has a height of 180 mm and a thickness of 16 mm. A red arrow at the top right points to a warning symbol.
