The RCI 946 & 950 Series push plates are ideal for push to open door automation applications. The 946 features a square design with three sizing options (4-1/2", 4-3/4", & 6") for easy aesthetic matching and flexibility in button visibility. The RCI 950 Series is a round push plate design with a standard 4-1/2" and a larger 6" option.

These stainless-steel push plates meet the highest construction and performance standards for dependability in a broad range of door automation applications.

Also available is the RCI T2T (touch to touchless) conversion modules. These modules are designed to convert existing Stainless-Steel actuators, such as the 946 and 950, into a touch-free solution.
