ST FLEX Profiles for Sliding Doors

Slimmest Profiles with Seals and Interlocks

Advantages at a glance

The ST FLEX sliding door profiles can be used universally due to their **slim** profile widths. Compatible with dormakaba ES200 Easy and ES200 Automatic Sliding Door Operators.

The profile combinations give great flexibility to design the panels with either a sliding door or a complete system with sidelite panels—depending on the project design.

Areas of application:

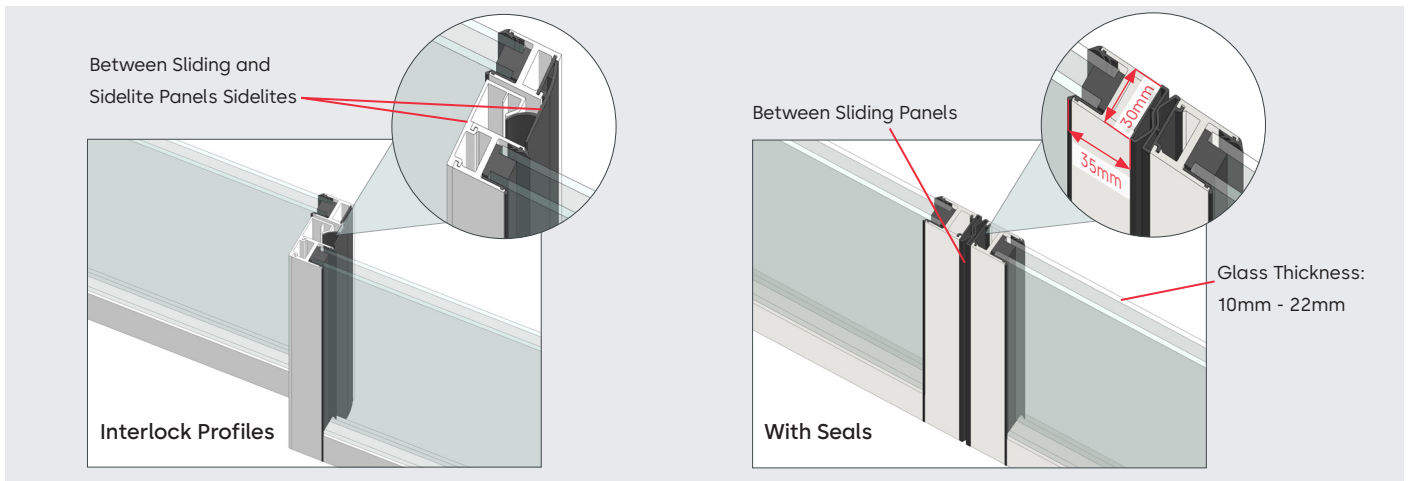

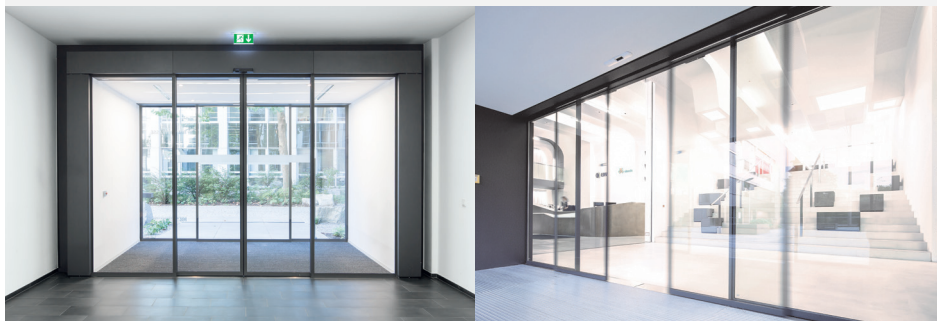

External doors with insulated (ISO) glazing, vestibule solutions, internal doors in public buildings, showrooms and retail outlets.

Features:

- Slim profile cross sections (30x35mm)
- Secondary safety edge made of rubber
- Suitable for single toughened glass or ISO glass (10mm up to 22mm)
- Sizes suitable: up to 1500mm panel width up to 3000mm panel height

Contribution to sustainability:

- Manufactured from durable materials using resource-efficient design.
- With environmental product declaration (EPD certificate).
